Claims

*Sub
a17*

add

1. An airbag for a vehicle occupant restraint system, said airbag comprising
an airbag wall which has a front wall facing an occupant to be restrained, a back
5 wall and a side wall, said front wall and said back wall being connected to each
other by means of a detachable connection, said connection between said front
wall and said back wall being severed by an unfolding of said side wall when said
airbag is inflated. *112.2*

10

2. The airbag according to Claim 1, wherein said detachable connection is
formed by at least one loop attached to said front wall and to said back wall,
respectively, said loops being connected to each other by a latching element.

*Sub
a17*

3. The airbag according to Claim 2, wherein said latching element is a
traction cable that is attached at one end to said side wall. *(16)*
